

10. Amendment to Memorial Bench Policy

An error has been spotted in the memorial bench policy. Item 7 states that benches must be of a wooden structure, however all of the original benches in the beach garden were made of plastic.

It is proposed that the following change is made:

Remove “7. Benches will be of wooden structure and prior to installation the design approved by the Parish Council to be in keeping with the intended location. For avoidance of doubt, it is advised that prior to the purchase of the bench a design statement and pictorial guide be submitted to Council for approval.”

Insert “7. Benches will be made of recycled plastic and prior to installation the design approved by the Parish Council to be in keeping with the intended location. For avoidance of doubt, it is advised that prior to the purchase of the bench a design statement and pictorial guide be submitted to Council for approval.”
